BELTING & AGRI SUPPLIES

RELIABLE SUPPLIES FOR INDUSTRY & FARM

BELTING FOR THE FACTORY. PARTS FOR THE FARM.

Conveyor belting, conveyor components and packhouse brushes, filters, driveline and wear parts, warehouse supplies and precision tooling. One supplier in Gauteng, delivering across South Africa.

- Filters
- Driveline & wear parts
- Warehouse & materials handling
- Conveyor components
- Conveyor belting
- Precision grinding & tooling

WHO WE ARE

ONE COUNTER FOR INDUSTRY AND FARM

We supply the belting that runs the factory line and the parts that keep the farm going, because more and more of our customers need both. Send us a list, a part number or a photo of the old part, and we come back with a quote.

01

CUT AND JOINED TO SIZE

Conveyor belting cut to your width and length and supplied endless or laced, ready to fit.

02

MATCHED BY PART NUMBER

Send the number off the old part, or the machine make, model and serial. We cross-reference and confirm the right part with your quote.

03

ONE QUOTE, ONE DELIVERY

Belting, filters, wear parts and warehouse supplies on a single quote, so there's one order and one delivery.

04

DELIVERED COUNTRYWIDE

Based in Benoni, Gauteng. Courier or road freight to farms, packhouses and factories in all nine provinces.

WHO WE SUPPLY

Agriculture | Packhouses | Food processing | Factories & workshops | Warehousing & logistics

THE RANGE

SIX RANGES, ONE SUPPLIER

Every range below is quoted to your machine, line or job. Tell us what you're replacing and we'll match it.

FILTERS 01

Air, oil, fuel, hydraulic and more, for tractors, earthmoving and engines.

- Air, oil & fuel filters
- Fuel/water separators
- Hydraulic & transmission filters
- Coolant filters & breathers
- Complete service kits

DRIVELINE & WEAR PARTS 02

The parts that wear out in the field, matched to your implement.

- PTO shafts & guards
- Universal joints
- Shear bolts
- Tines & points
- Blades & shares
- **Harvester & packhouse wear parts** (page 7)

WAREHOUSE & MATERIALS HANDLING 03

Everything for the dispatch floor and the store.

- Pallet wrap & strapping
- PVC strip curtains
- Castors & wheels
- Bearings & transmission belts
- Pallets, crates & bins
- Pallet jacks, trolleys & forklift tyres

CONVEYOR COMPONENTS 04

Light-duty conveyor parts for packhouses, factories and dispatch.

- Gravity rollers & skate wheel
- Belt conveyor rollers
- **Packhouse brush rollers** (page 8)
- Side guides & wear strips

CONVEYOR BELTING 05

PVC, PU & modular plastic, food-grade, cut and joined to size.

- PVC belting
- PU food-grade belting
- Rough-top & incline
- Modular plastic belting
- Joining, lacing, cleats & sidewalls

PRECISION GRINDING & TOOLING 06

Resharpening and custom cutting tools.

- End mills & drills
- Reamers & taps
- Inserts & countersinks
- Specialised & custom tooling

01 FILTERS

Air, oil, fuel, fuel/water separator, hydraulic, transmission, coolant and breather filters for agricultural, earthmoving and industrial machines. Send the part number off the old filter, or the machine and engine details, and we match the right filter, checking the thread, seal, size and bypass valve.

FILTERS TO SUIT

Agricultural equipment
John Deere, New Holland, Case IH, Massey Ferguson, AGCO, CLAAS, Fendt, Deutz-Fahr, Valtra, Kubota, Landini, McCormick, SAME, Manitou

Earthmoving & construction
Caterpillar, Komatsu, Volvo CE, Hitachi, JCB, Bobcat, Doosan / Develon, Case, Liebherr, Terex, Atlas Copco, Dynapac, Kobelco

Engines & trucks
Cummins, Perkins, Kubota, Yanmar, Isuzu, Mercedes-Benz, MAN, Scania, Iveco, Deutz

COMPLETE SERVICE KITS

Every filter a machine needs for a full service, plus seals, O-rings and gaskets, put together from the model and serial number.

02 DRIVELINE & WEAR PARTS

PTO shafts, universal joints, shear bolts, tines, points, blades and shares for tractors and implements. Tell us the implement and the part, and we'll match it.

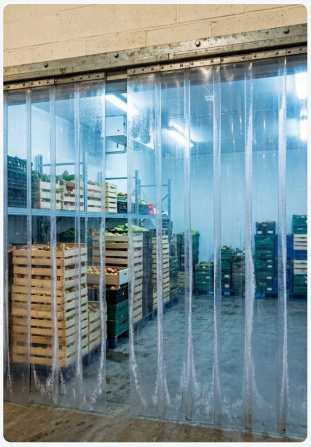

- Complete PTO shafts, guards and safety chains
- Universal joint crosses
- Shear bolts in the correct grade
- Cultivator tines and points
- Plough shares and blades

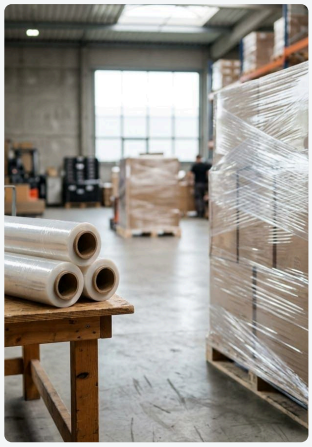

Machine and engine brand names are the property of their owners and are used only to show which machines our parts suit. We are not affiliated with, or an authorised dealer of, these manufacturers.

03 WAREHOUSE & MATERIALS HANDLING

The consumables and equipment that keep a store, packhouse or dispatch floor moving, on the same quote as your belting and filters.

- Pallet wrap & stretch film
- PET & PP strapping
- PVC strip curtains
- Castors & wheels
- Bearings & housings
- Transmission belts
- Pallets, new & used
- Plastic crates & bins
- Pallet jacks & trolleys
- Forklift tyres & service
- Rack protection & dock safety

04 CONVEYOR COMPONENTS

Light-duty conveyor components for packhouses, food plants, factories and dispatch lines.

WHAT WE SUPPLY

- **Gravity roller & skate wheel conveyor**: rollers, sections and spares
- **Belt conveyor rollers**: carry and return rollers
- **Brush rollers**: for washing, waxing and grading lines (page 8)
- **Side guides & wear strips**: to protect belts and guide product

REPLACING ROLLERS?

Send the between-frame width, tube diameter, shaft end (spring-loaded or drilled) and the roller pitch.

05

CONVEYOR BELTING

PVC and PU conveyor belting cut to width and joined to size, and modular plastic belting for wash-down food and packhouse lines.

PVC BELTING
General handling, boxes, cartons and packing lines.

PU FOOD-GRADE
White and blue belts where the belt touches meat, bakery or fatty product.

ROUGH-TOP & INCLINE
Grip for inclines, bags and loose product.

MODULAR PLASTIC
Wash-down lines where sections must be replaced quickly.

JOINING & LACING
Finger splice, overlap splice or wire lacing for quick removal.

CLEATS & SIDEWALLS
To carry product up an incline without rolling back.

FOR A QUOTE, SEND US

1. **Width**, edge to edge across the top.
2. **Length**, around the belt, or the pulley centre distance and both pulley diameters.
3. **Thickness and plies**, measured at the edge.
4. **What it carries**, whether it touches food, and if it runs on an incline.
5. **How it's joined** now, plus a photo of the top surface and a cut edge.

NEW IN THE RANGE

02 HARVESTER & PACKHOUSE WEAR PARTS

Rubber and polyurethane parts that wear out every season, for potato harvesters, stone and clod screeners, combine headers and packhouse washing, drying and grading lines. Order before the season, so the parts are on the farm when you need them.

POTATO HARVESTERS

WEB IDLER SPROCKETS

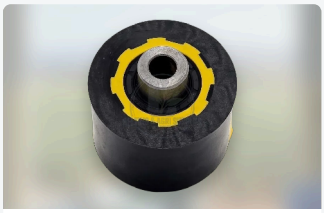

Rubber sprockets on sealed bearings that guide and tension the sieve web.

POTATO HARVESTERS

SPLIT WEB DRIVE SPROCKETS

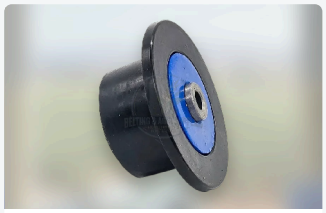

Two halves that bolt onto the drive shaft without taking the shaft out.

POTATO HARVESTERS

WEB SUPPORT ROLLERS

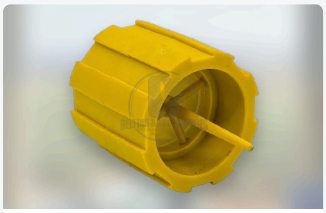

Rubber rollers on sealed bearings that carry the sieve web along its length.

POTATO HARVESTERS

FLANGED WEB GUIDE ROLLERS

Keep the web running straight and off the side frames.

POTATO HARVESTERS

PLAIN ROLLER CENTRE INSERTS

Yellow fluted centre inserts for plain rollers, supplied loose.

SCREENERS & HARVESTERS

POLYURETHANE STARWHEELS

Flexible PU stars: soil, stones and clods fall through, the crop rides over.

HARVESTERS & GRADING

RUBBER CLEANING STARS

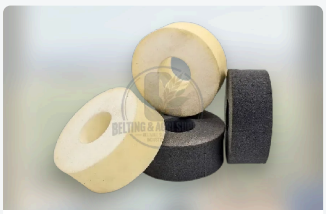

Softer stars that clean soil and stones off the crop with less damage.

COMBINE HEADERS

COMBINE REEL TINES

Clip-on plastic tines for pick-up reels, matched by the number on your old tine.

WASHING & WAXING LINES

SPONGE DRYING ROLLERS

Foam donuts for the roller dryer after the washer, on citrus and vegetable lines.

BRUSH WASHERS & DRYERS

BRUSH & SPONGE ROLLER HUBS

Square-bore rubber hubs that carry brushes and foam donuts on square shafts.

HARVESTERS & GRADING LINES

PU GUIDE WHEELS

PU wheels with sealed bearings that guide belts, webs and roller tables.

PACKHOUSE CONVEYORS

SPLINED ROLLER END CAPS

White nylon caps that drive the rollers on packhouse conveyors and roller tables.

MATCHED FROM A PHOTO

Send a photo of the old part, any number moulded on it, the bore, outside diameter and number of teeth or arms, and the machine make and model. We match it and confirm the exact part with your quote.

PACKHOUSE BRUSHES: PAGE 8

Spiral, stapled, transfer and side brushes and foam donuts for washing, waxing and grading lines, matched to your machine.

Parts are supplied to suit the major makes of harvesters and packhouse lines. We are not affiliated with any machine maker.

NEW IN THE RANGE

04 PACKHOUSE & AGRI BRUSHES

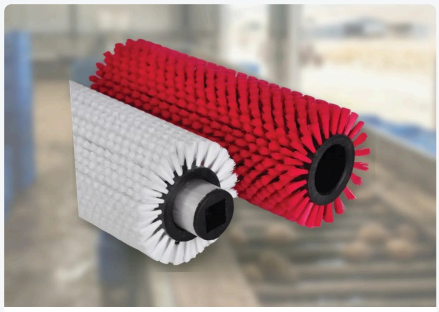

Brush rollers for washing, brushing, waxing, polishing, drying and sorting potatoes, citrus, fruit and vegetables, plus side brushes, foam donuts and bushes. From a single section to a full line.

SPIRAL BRUSH ROLLERS

Washing, polishing, waxing and sorting

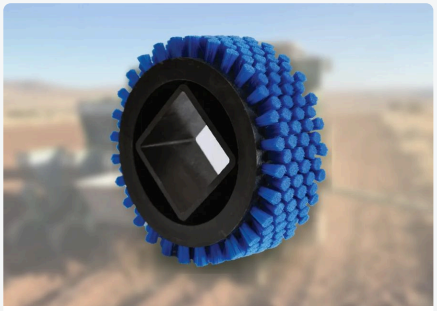

Close or open (pitch) wind on an aluminium shaft. Length 680 – 2 180 mm.

STAPLED (TUFTED) BRUSH ROLLERS

Potato & vegetable washers, citrus waxing

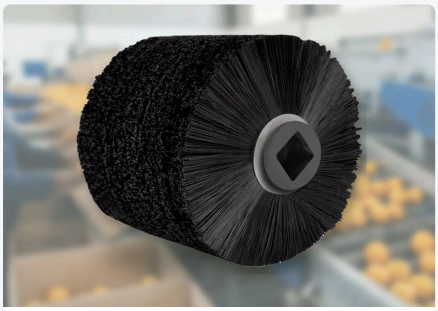

75 mm core, Ø 120 – 133 mm. Loose sections or complete brushes.

SPECIALISED & SQUARE-DRIVE BRUSHES

Potato and citrus washing & polishing machines

Square-bore sections made to fit your machine: bore, diameter, length and bristle.

TRANSFER BRUSHES

Gentle transport and sorting of citrus and fruit

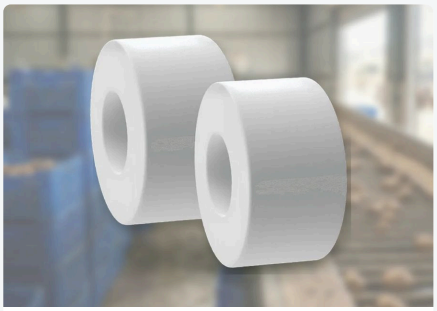

Longer, softer bristles that move fruit without marking it. 300 mm sections.

SIDE & STRIP BRUSHES

Sealing, guiding and positioning on conveyors

70 mm wide, 600 – 1 380 mm long, on a polypropylene or wooden back.

FOAM DONUTS & BRUSH BUSHES

Roller dryers and brush shaft ends

Foam donuts Ø 25 – 240 mm. Bushes in glass-filled nylon or cast iron.

WHAT WE NEED TO QUOTE

1. A photo of the old brush, including the shaft end or bore.
2. Length, outside diameter and core or shaft size.
3. What it brushes (potatoes, citrus, apples…) and how many you need.

HUBS & SPONGE ROLLERS

The rubber hubs that carry brushes and foam donuts on square shafts, and sponge drying rollers, are on page 7. Quote them together with your brushes.

06 PRECISION GRINDING & TOOLING

Resharpening, reconditioning and custom cutting tools for engineering workshops, manufacturers and maintenance teams. Tools are ground on precision tool grinders back to the right angles and profile, not just touched up.

TOOLS WE RESHARPEN OR MAKE

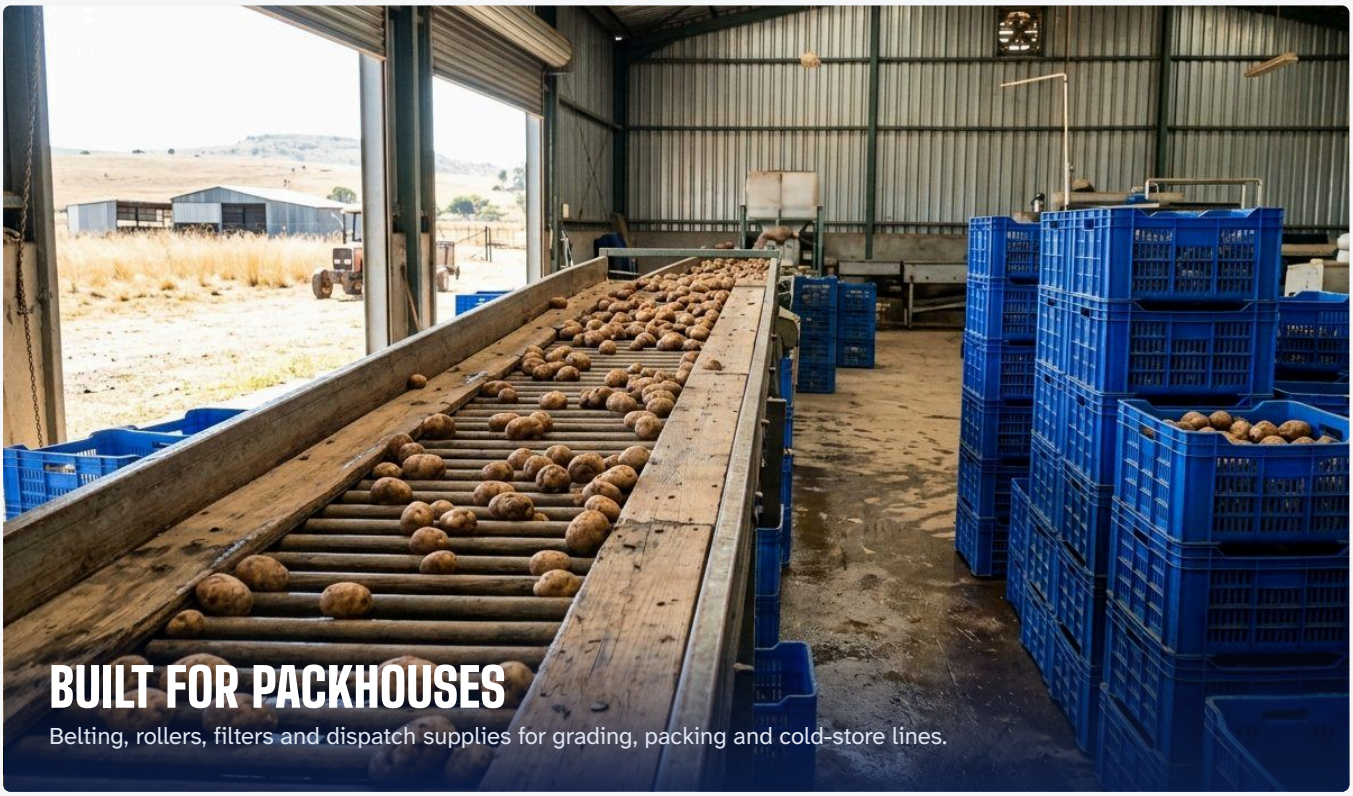

- End mills
- Drills
- Reamers
- Taps
- Inserts
- Countersinks
- Specialised cutting tools
- Custom tooling

RESHARPEN BEFORE IT CHIPS

A dull tool can be reground many times; a chipped one loses far more in the regrind. Send the tool type, sizes, quantity and photos of the cutting edges.

BUILT FOR PACKHOUSES

Belting, rollers, filters and dispatch supplies for grading, packing and cold-store lines.

HOW TO ORDER

SEND A LIST. GET A QUOTE.

1
TELL US WHAT YOU NEED
A list, part numbers, measurements or photos of the old parts, on WhatsApp, email or through the quote list on our website.

2
WE QUOTE
We match every item, confirm the exact parts and options, and quote the parts and delivery together, usually the same working day.

3
WE DELIVER
Once you confirm, it goes by courier or road freight to your farm, packhouse or workshop. Collection in Benoni by appointment.

SNAP & QUOTE, ANY TIME
Not sure what the part is? On our website, send a photo of the old part or its part number to our parts assistant, in English or Afrikaans. It works out what you need and builds your quote list for the team to price.
